To

The Chief Secretary to the
Government of Mysore
Bangalore.

Sir,

I have the honor to forward for
orders of the Dewar Copy of my letter No. 3351
of 18th June 1894 to the Chief Engineer, and his
reply thereto, on the subject of providing a
few small buildings for in connection with the
Pilgrim Chattram and attached hospital with
a view to making them complete in regard
to the treatment of the sick and of those who
are well and the safety of the General public
when they leave.

2. At present it is impossible to keep
the servants on the premises for the reasons
stated in my letter and without their
constant presence there both by night and
day the objects of the Chattram and hospital
cannot be properly carried out.

3. Those who use the Chattram bathe
and

and that in an unsatisfactory manner near
the well for the reasons stated and they can
only wash their clothes there very imperfectly
which is a pity as it would be desirable
that they should depart clean in body
and in raiment.

4. Iron gratings for the windows of
the room occupied are necessary for the
reasons stated and so are two small rooms
one air tight, for disinfecting tainted
clothing which cannot be destroyed and which
must be returned to the owners or their friends.

5. The necessity for possessing a proper
and separate place to keep food supplies
and bedding and clothing which may
be wanted at any time is manifest and
much inconvenience has occasionally been
experienced up to this for want of it.

6. The necessity for providing the extra
accommodation required by the Hospital
infirmary is explained in the letter.

7. I trust the Dewar will be pleased
to sanction the same, which will not
be large, to supply and complete the
requirements of this most useful
institution

institution.

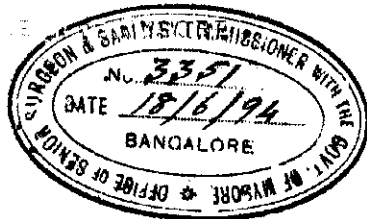

3

I have the honor to be
Sir

Your most Obedient Servant

J. D. Smith

Encl: 1

To

The Chief Engineer of Mysore
Bangalore

Sir,

I have the honor to bring to your notice that there are a few small build-
-ings still required in connection with the
Pilgrims Chuttham and Hospital to make
it fairly complete.

- 1 Brahmin cook
- 1 Waterman
- 1 Sudra cook
- 1 Peon
- 1 Male Ward ^{man} for
- 1 Female ^{man} do -
- 1 Dholi
- 1 Toty

2. There are eight servants as per margin
employed there, and there are no quarters
provided for them, none are procurable in
the immediate neighbourhood, and the
result is that it is impossible to have
these persons always available both day
and night, since they have got to live
some considerable distance off in the Petah.
I would therefore solicit the favour of
having quarters provided for them on the
premises so as to obviate this inconveni-
-ence.

3. I would also request the favour of
having two covered bathing places one
for males and one for females construe-
-ted near the well for pilgrims to wash
themselves

themselves in. They will not wash in the bath rooms now provided in connection with the wards as they are too far from the well to carry water, and, as there are sometimes 40 or 50 pilgrims at one time there, it would be impossible to provide Baghuni water carriers for them. It would be desirable to so arrange the bath rooms that clothes could be washed in one portion of each of them.

4. - It would be very desirable also to provide the windows of all these buildings with iron gratings, as at present for want of these, there is great feeling of insecurity, and the result is the occupants close the paneled windows which renders the air inside stifling and very impure and this is particularly objectionable in the case of the pilgrims amongst whom there is a probability of communicable disease existing.

5. - I would also request the favour of constructing a small building consisting of two rooms about 12' x 10' each for disinfecting by means of boiling and fumigating clothes soiled by cholera or other discharges which may not be practicable ^{or necessary} to destroy and which may have to be returned to the owners or their friends.

6. - A small building of three rooms is
also

also required in front in which to keep good supplies, bedding and clothing for hospital use and to accommodate the parpatigar in charge.

7.- The Hospital Assistant is badly in want of a detached cook room. He has got a large family and the inconvenience of cooking in the dwelling room, or all hut, is great.

8.- He occupies the small building originally intended for a nurse close by his own house but this he largely uses for storing medicines &c and it is consequently not sufficient for his wants combined with the other in the absence of a detached cook room.

9.- He keeps a pony and trap &c which are accommodated in a mud structure by the side of his house which gives the place a very untidy appearance.

10. Under these circumstances I would request the favour of your providing him with a separate or detached cook room and a small stable and coach house.

Sir

In reply to your letter No: 3351 dated
18th Instant, requesting to provide a few
small buildings still required in connection
with the Quarantine Camp buildings at
Bangalore, I have the honor to invite
your attention to this office No: 5036/637
dated 14th November 1891, in which you
were informed that as a large sum
of money has already been spent on
these buildings, the Government con-
sider that no more money should be
spent on them for the reason therein
assigned. The Public Works Department
is therefore precluded from providing
the additional buildings asked for
in

in your letter under reply without the
express sanction of Government, for which
you might yourself apply, if you consider
that the circumstances of the case warrant
your asking for the above quoted
order being set aside.

I have &c.

FILE No.	13-94
SERIAL No.	42

2929
L 553

The President
City Municipal
Commission
Bangalore

To,

The Chief Secretary
to the Government of
Mysore
Bangalore

Sir,

In reply to Government Proceedings No. 1101-3 dated 20th July 1894 forwarding a copy of Senior Surgeon's letter No. 16 dated 3rd July 1894 and requesting me to report whether all the additions suggested by the Senior Surgeon are absolutely necessary and to what extent the Pilgrim Chattram has been utilized I have the honor to report that though Dr. Mc. Gann's letter sent to me with the above Proceedings contained no details of the

improvements proposed. Dr. Mc-
Gann was with me when I inspected
the Chattram and was kind enough
to explain the details to me. There
is no doubt whatever that the im-
provements proposed are very
desirable. The Chattram has a
Cholera Hospital attached to it,
the very character of the institution
makes it desirable that the servants
employed in it should live some-
where near it. Servants' quarters
will thus improve the utility of
the institution. The Government
I believe is aware that the Chattram
consists of several detached
buildings, each building has
a room in it for bathing, but
these rooms do not appear to be
soured by the Pilgrims, who as
a rule bathe in the open air
near the Chattram well, and
wash their clothes there. Dr. Mc-
Gann proposes to provide a
sheltered bathing place near
the well which will certainly be

as great improvement. The
situation of the chattram and its
close proximity to a large madigan-
-palya make the proposed iron
grating for windows very desirable.
In an institution of this kind the
use of some arrangement for dis-
-infecting tainted clothing is as
unquestionable as that of a
store room or house which at
present does not exist. The
Hospital Assistant in charge
of the chattram has his quarters
provided; this building is large
enough for a man of a small
family. The present Hospital
Assistant who has made himself
useful and has made the chattram
more or less popular, happens
however to have a family which
has out grown the accommodation
provided. I suppose it was
originally intended that a room
in the building should be used
as a place for cooking, but that
arrangement in the case of the

Present man in particular and generally in the case of any other Hospital Assistant is inconvenient. A small kitchen is very desirable so is also some stabling as the Hospital Assistant has also the charge of a Dispensary in the City and in consequence keeps a conveyance.

2. In a matter like this it is very difficult to say what is "absolutely necessary" and what is not. If funds are available I am quite certain that they shall not be ill spent on the improvements suggested by the Senior Surgeon.

3. I enclose a statement which contains the information called for by the Government in the concluding part of para 1 of the Proceeding. I have also shown in it the highest number of the pilgrims staying in the Chattram on a day in each month. It ranges from 25 to 113.

The

The average per day expenditure
GOVERNMENT OF MYSORE

I have the honor
to be Sir,
Your most obedt. servant

Amiasabbay

3/18
For President

184

was constructed at a
cost of Rs 10,000 from
- Civil Funds. The additional
estimate which the Dewan offered
to sanction in 1891 was for Rs 20,000.
The ground for refusal was
"It is not desirable to do
more at present for a building
likely to be used for a fortnight
or so each year, if at all."

But the statement now
received shows that the Chattram
is largely used, and both the Dy. Comm.
& the Dy. Commr. consider the ex-
penses necessary.

Submitted
7-9-94

The Dewan having once
refused to spend more money
on the Chattram, let the file
go to him for orders. The
statement now received shows
that the Chattram is attended
by pilgrims during all the
months of the year in large
numbers. Vide statement
annexed to the Dy. Commr's letter. The
estimated cost of the temple
is only Rs 2000. I recommend
the Govt approval of the Dewan's
recommendation. The charge
can be met from the P. & L. of the
Fund. The Chattram is maintained by
the Government. I recommend
the Govt approval of the Dewan's
recommendation.
